WHY DON'T YOU HAVE ONE?

Every single member of the military is issued one, why shouldn't your personnel have one too? We saw the need to outfit law enforcement and civilians with the same emergency kits that are issued to each soldier.

SPECIFIC TO INDIVIDUAL NEEDS.

These custom kits are specific to individual needs. We are communicating and working with EMT's and Doctors to insure that the right supplies are packed into each individual kit. The need to confirm that a

law enforcement officer, boater or surfer/diver, hunter or camper/hiker has what he would need in a crisis situation was the motivation to contact those in the medical field in order to make this item available. Each version is supplied with first aid solutions and are color coded to their respective individual's activities.

For more information please call or email S.O.TECH.
